

Dear **Applied Topology** in Bedlewo 2013 Participants,

It is already less than two months for the conference to begin. We are really looking forward to see you all in Bedlewo. This is last but one **announcement**, please read it carefully since it contains important information.

1) In [this webpage](#) you can find the list of the abstracts. If your abstract is not there and you intend to give a talk, please send it to me not later than Friday, June 7, 8:00 EST. This is the final deadline. Abstracts sent later will not be considered. If your abstract is there but there is any problem, please let me know. We want to point out, that all presentations which are not invited ones will be placed in 2-3 parallel sessions. Each slot in such a session will be 20-25 min. The detailed schedule will be available at our webpage at the end of June.

2) As you know we have a serious overbooking, therefore some participants were asked to share a room with other participant and some of them will stay at Szablewski hotel, 2km/1.5 mile from the Conference center. To avoid any confusion, please check your room classification (single in the Conference Center, double in the Conference Center, single in Szablewski hotel, double in Szablewski hotel) [here](#). If there are some problems, please let us know not later than June 15. Also if you are traveling with accompanying person, please check if he/she is on the list (of course participants who stay in a 'single' room with accompanying person(s) will be provided with a room of suitable size even if it is classified as 'single' room).

3) We are happy to **announce**, that Pavle Blagojevic, Lisbeth Fajstrup, and Rafal Komendarczyk has agreed to give an open introductory lectures on some of the topics of the conference. The lectures will take place at Sunday 21 afternoon and evening. The titles and the schedule of the lectures are given in below. The lectures are obligatory for all graduate students attending the conference and highly recommended for the all younger participants. All other participants are mostly welcome to attend.

Sunday 21

14.15- 15.45 = 2:15 - 3:45 pm -- Pavle Blagojevic, "Using equivariant **topology** methods in combinatorial geometry"

16.15-17.45 = 4:15 - 5:45 pm -- Rafal Komendarczyk "Knots and links in flows and fluids"

20.00- 21.30 = 8:00 - 9:30 pm -- Lisbeth Fajstrup "Concurrency and directed **topology**. Problems and methods".

4) We are planning to organize transfer by bus shuttles from Poznan to Bedlewo at Sunday, July 21 and from Bedlewo to Poznan at Saturday 27 afternoon. If you want to use the transfer please let us know the time of your arrival and departure please use the following links:
